Like a spilled offering
the dense night relinquished
its scent of wild geraniums

Raven medicine
seeps into her slowed blood

She turns inward
descending back into the world
as the breath of love escapes her lips

"Bejewelled", Mix Media, Darlene St. Georges

Bejewelled

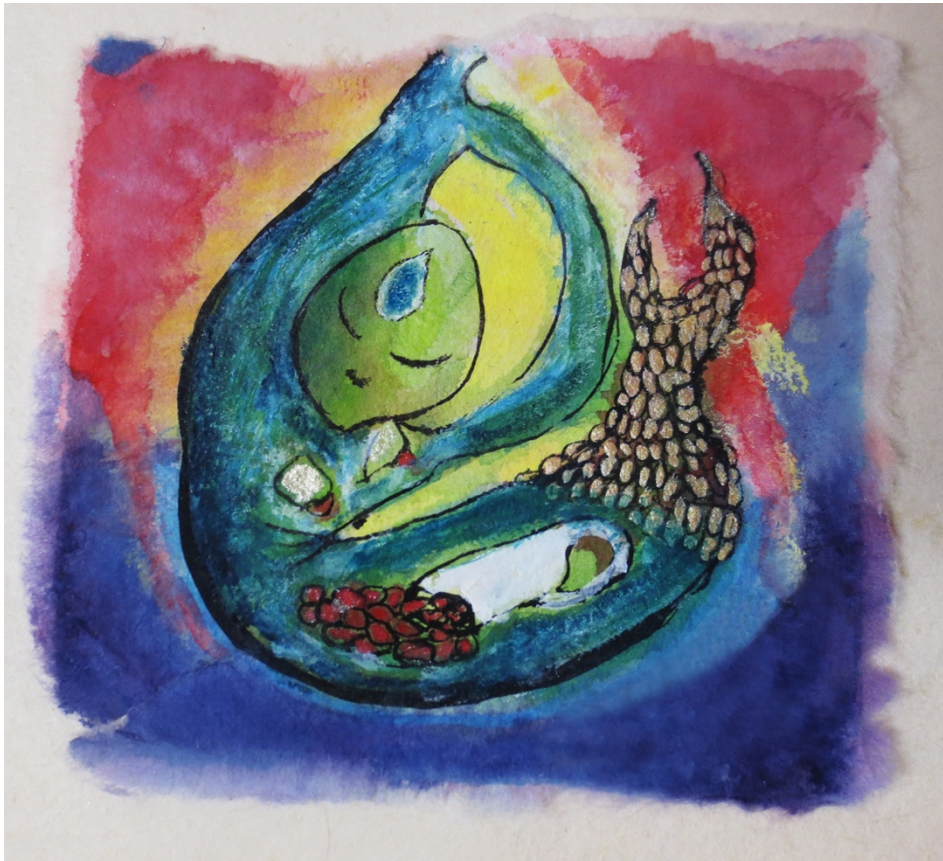

Insatiable

elegant

divine.

iridescent gem in turquoise seas
primordial treasure
collected stories
remanence of who we might become;

delicate premises
that offer us passage through the Earth

"Light Dances", Mix Media, Darlene St. Georges

The breath of memory
pulsates frequencies
into distinct orchards
where meticulous
assemblages of shadows
and lines of existence entwine

She rises up

meandering, folding and unfolding
through light dances and laughter.
